

# Detroit CoHousing

The Detroit Cohousing group believes that they have an opportunity to live out their values in part by choosing where and how to live. They desire to celebrate beauty and diversity, nurture each person in the context of community, respectfully interact with the environment, and recognize our connection and responsibilities to the wider neighborhood.

Sunstructures Architects assisted the group in their planning efforts and held workshops to developed a site plan and dwelling unit schematics.

- Planning Workshop

- Common House Space Plan

- Site Plan

- Dwelling Unit Elevations
