

The Wellness Community of Southeast Michigan

The Wellness Community (TWC) is the largest and most comprehensive program in the country devoted solely to providing psychosocial and educational support to people with cancer, their caregivers and children – all free of charge. Our mission is to help people affected by cancer enhance their health and well-being through participation in professional programs of emotional support, education and hope.

Sunstructures Architects assisted the group in their planning efforts and developed schematics used by the group in their fundraising efforts.
